

New and Original Fashion Designs For Smart Women

THE sports type of dress is unusually popular this year among school girls and business girls. It seems to possess just the right mingling of snap, simplicity and practicality which the active girl aims for. Its most popular interpretation is in wool jersey, which has now become one of fashion's standbys, threatening to be a parallel of serge. It is so conveniently lacking in formality, which makes it seldom necessary to be pressed, although of course any garment looks the better for a pressing. And as to its wearing qualities, it does not shine like serge and wears just as long, while its soft, dull surface forms a most pleasing background for any little bit of contrast in decoration.

The blouse type of costume is especially favored just now, even the little street "jackets" assuming that style, so the model I have designed here will meet with approval. Its main claim to distinction is not the pretentious monogram which, nevertheless, is one of the smart methods of elaborating a frock, but in the narrow band which appears from under it and forms a shoulder strap over the opposite shoulder. Thus the right and left sides of the blouse are nicely balanced. The monogram may incorporate two or three colors such as gold and blue on brown, or gray and blue on green or red, or red and gray on blue. Any girl at all handy with the needle can embroider herself such a monogram after designing it. If you should not care for the monogram or have not the time to apply it, a pretty embroidered motif or one of punctured kid would do.

The skirt of this frock carries out the one-sided effect, being laid in plaits which are cut downward in sharp points at the bottom, breaking the straight hem line. Of course,

WOMEN STUDENTS WILL LIVE IN NEW HALL AT COLUMBIA

Bids for construction of Resident Building on East Field Called For.

Bids for the construction and equipment of a resident hall for women students of Columbia University, to be erected on East Field, directly west of President Butler's house, have been called for by an authority of the Trustees, according to an announcement yesterday. It is hoped the building may be ready for occupancy in a year. This structure is a part of the \$7,000,000 building program.

The women's dormitory, plans for which are being drawn by McKim, Mead & White, will have eleven floors and a basement in the central portion, and nine stories and a basement in each of the two wings. Provision also will be made for an infirmary and dining hall. The Trustees have also approved plans for the erection of the School of Business Building, to occupy the site on the quadrangle at the corner of 115th Street and Broadway. It will be completed in 1924.

these plaits will have to be faced instead of hemmed like the rest of the skirt. Velvet and serge are other suitable fabrics for this design.

"HOLY NAME" CARRIERS TO HOLD A RECEPTION

Post Office Employees Give Their First Annual Entertainment Friday.

The first annual entertainment and reception under the auspices of the New York Post Office Holy Name Society will be held next Friday evening at the Central Opera House, East 67th Street. The Entertainment Committee has arranged an excellent vaudeville program, after which there will be a reception, followed by dancing. Music will be furnished by the New York Letter Carriers' Orchestra. The officers of the society and the delegates of the various post office stations are co-operating with the Rev. John J. Kiernan, spiritual director, with a view to making the affair a success.

'GOD OR GOLF' THEME OF SERMON ON LINKS, RECTOR LOVES BOTH

Jersey Pastor Announces Series to Be Delivered From "The Home Green."

A series of sermons on golf was announced yesterday by the Rev. Francis H. Richey, rector of St. George's Protestant Episcopal Church, Maplewood, N. J. He is a great golfer.

The sermons, which he says will be delivered from "the home green," include these topics: "Follow Through," "Choose the Right Club," "Improve Your Putting," "What Is Your Record?" "Which Shall It Be—God or Golf?"

CURLING IRON PIERCES SCHOOL TEACHER'S BRAIN

Miss White Fixing Hair, She Falls and Dies Instantly.

ELIZABETH, N. J., Nov. 16.—While curling her hair this morning, Mary A. Jessich, twenty-six, a school teacher, fell to the floor and was instantly killed when the curling iron pierced her brain.

The young woman is believed to have been seized with a dizzy spell, to which she was subject, and had been away from school because of illness. Yesterday she decided to return. When her mother heard the thud of her body, she ran into the room and found her daughter dead.

You can bet that I will recommend my friends to you.
Yours truly,
MRS. RICHARD KEMPSTALL.
